

IPOINT CONNECT PRO Singledock

Description

The Single Dock is capable of charging any iPad that is housed in a iPort Connect Pro series case. If the merchant has a Link 2500 or Moby5500* housed in an iPort Payment Case the card swipe will charge when attached to the back of the iPad in a Connect Pro case.

Who it's for

Merchants where only a single mobile order taker is needed; Drive-Thru, Small TSR, Line Buster for QSR.

Who it is NOT for

Locations that need a place for multiple mobile order taking solutions to charge. Not ideal for two or more mobile order takers.
