

## Link 2500 Mobile iPad Case

### Description

Engineered to hold the mobile Ingenico Link 2500 mPOS device securely and simply, this new mobile tablet case is a sleeker, more portable, all enclosed mobile order taker solution built around the iPad mini and standard iPad.

The iPad mini and standard case has a built-in battery, optional charging cradle (at an additional cost) and contains an enclosed payment terminal. More portable in size, this device is a great solution for on-the-go order taking.

### Ideal use for:

- Line Busting
- Drive Thru Orders
- Table-Side Orders

### Features:

- Smaller size optimized for portability
- Single charger for both iPad and payment device
- 3.7 Volt/4000mAh Hot Swappable Battery extends the useful life of both devices
- Optional 5 slot charging station
- Fully enclosed, durable solution
- Available for both the iPad mini and ninth generation standard iPad
