

RedPark Ethernet Connect - Lightning

Description

The Redpark Gigabit + PoE Adapter connects iPads to ethernet and uses power over ethernet (PoE) to charge the device. This enables an iPad to receive both data and power over a single Ethernet cable when connected to a PoE injector.

Specifications

Dimensions:

- 3.25" x 1.75" x .95"

Ethernet:

- 10/100/1000
- RJ45 Auto MDX Connector

Power Over Ethernet:

- PoE (802.3af) Class 0 device
- Power consumption: 15.4W

iOS:

- For use with all iOS devices with Lightning connection
- Requires iOS 10 or later
- Provides 2.1A 5V power to the iOS device
- Connector: USB Micro B
- Uses Redpark Series USB Micro B to Lightning cable

Specifications

Environmental:

- Temperature Range: 0C - 55C
- Bundle Includes:
 - Redpark Gigabit device
 - PoE Injector
 - USB Micro B to Lightning cable
 - 5FT Ethernet Cable
